

ANKIT SAINI

Software Engineer / Full Stack Developer Intern

Basti, Uttar Pradesh, India | +91 6387738082 | ankitsaini9438@gmail.com | linkedin.com/in/ankitsaini06 | github.com/ankitsaini06

PROFESSIONAL SUMMARY

B.Tech Information Technology student (graduating 2027) with hands-on experience in JavaScript, Python, C++, SQL, and the MERN full stack. Solved 235+ Data Structures and Algorithms (DSA) problems and built three full-stack and machine learning projects. Seeking an entry-level Software Engineer / Software Developer Intern role to apply full-stack development and problem-solving skills to real-world projects.

TECHNICAL SKILLS

- **Programming Languages:** C++, Java, JavaScript, Python, SQL
- **Web Technologies:** HTML5, CSS3, React.js, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs, JWT Authentication
- **Core Computer Science:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Engineering
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Jupyter Notebook, PyCharm

PROJECT EXPERIENCE

ShelfWise – Library Management System | *React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS*

- Developed a full-stack library management system with separate Admin and Student dashboards using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented JWT-based authentication, email OTP verification, and role-based access control to secure login and signup workflows.
- Built modules for book management, student management, book issue/return tracking, due-date tracking, and automatic fine calculation.
- Integrated MongoDB for real-time data management and designed responsive, mobile-friendly dashboards for efficient library operations.

Foodie – Responsive Food Ordering Website | *HTML5, CSS3, JavaScript, Swiper.js*

- Built a responsive food ordering website with a dynamic menu, shopping cart, and customer review slider.
- Implemented mobile-friendly navigation, newsletter subscription, and interactive UI components using vanilla JavaScript.
- Delivered a smooth, cross-device user experience using HTML5, CSS3, JavaScript, Font Awesome, and Swiper.js.

Fake News Detection System | *Python, Machine Learning, Scikit-learn*

- Built a machine learning classification model to detect fake news articles using supervised learning techniques.
- Performed data preprocessing, feature extraction, and model training on a labeled news dataset.
- Evaluated model performance using standard classification metrics, including accuracy, precision, and recall.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

ABES Engineering College, Dr. A.P.J. Abdul Kalam Technical University (AKTU), Ghaziabad, Uttar Pradesh
Aug 2023 – Jun 2027 (Expected) | Aggregate: 72.73%

Intermediate (Class XII, CBSE)

St. Chandra Prabha Memorial Academy, Basti, Uttar Pradesh
Apr 2022 – Mar 2023 | Percentage: 62.4%

High School (Class X, CBSE)

St. Chandra Prabha Memorial Academy, Basti, Uttar Pradesh
Apr 2021 – Mar 2022 | Percentage: 76.2%

ACHIEVEMENTS

- Solved 235+ Data Structures and Algorithms (DSA) problems across competitive coding platforms.
- Built and deployed multiple academic and personal projects spanning Machine Learning and Full Stack Web Development.
- Maintained an active GitHub profile showcasing project repositories and consistent coding practice.

CERTIFICATIONS

- Full Stack Development (MERN) – GeeksforGeeks
- Machine Learning Fundamentals – Udemy
- Problem Solving (Basic) – HackerRank
- Python (Basic) – HackerRank
